

flexVDI 3.1 Administration Guide

This guide assumes that you have followed the [Getting Started](#) and [First steps with flexVDI Dashboard](#) guides. Once you have one host, one *Manger* instance and you are familiar with the *flexVDI Dashboard* interface, this guide will help you set up your cluster to add additional hosts and configure the shared storage.

- [Advanced configuration](#)
- [Clustering and shared storage](#)
- [Managing the flexVDI platform with flexVDI Dashboard 3.1](#)
- [VDI connections and the flexVDI Gateway](#)
- [Configuring guest operating systems](#)
- [Backup and recovery strategies](#)
- [flexVDI Appliances](#)
- [Updating flexVDI software](#)
- [Multitenancy](#)
